Problem Statement

Design and implement a T20 cricket score predictor system that accurately forecasts the total score of a team in a given T20 match.

Problem

PROBLEM

How to increase the accuracy of the T20 score predictor system?

Key rules of brainstorming
To run an smooth and productive session

- Stay in topic.
- Encourage wild ideas.
- Defer judgment.
- Listen to others.
- Go for volume.
- If possible, be visual.

Brainstorm

Vijayalayan	Raghul	Jayashri	Nachiyappan
Historical Performance Analysis	Team Compostion and Strategy	Inning Progression Model	Live Data Integration
Player Form and Conditions	Player Head-to-Head Statistics	Machine Learning Algorithms	Social Media Integration

Prioritization

4

**Prioritize**

Your team should all be on the same page about what's important moving forward. Place your ideas on this grid to determine which ideas are important and which are feasible.

🕐 20 minutes

Importance

If each of these tasks could get done without any difficulty or cost, which would have the most positive impact?

- Team Compostion and Strategy
- Live Data Integration
- Player Head-to-Head Statistics
- Inning Progression Model
- Historical Performance Analysis
- Machine Learning Algorithms
- Player Form and Conditions
- Social Media Integration

TIP

Participants can use their cursors to point at where sticky notes should go on the grid. The facilitator can confirm the spot by using the laser pointer holding the **H key** on the keyboard.

Feasibility

Regardless of their importance, which tasks are more feasible than others? (Cost, time, effort, complexity, etc.)
